

WATERVILLE ESTATES VILLAGE DISTRICT

POLICY POSITION

Voted 1/25/12

DRIVEWAY CULVERT OWNERSHIP AND MAINTENANCE

Culverts at the intersections of driveways that connect to Waterville Estates Village District roads are the responsibility of the private owner of said driveway and not the responsibility of Waterville Estates Village District. WEVD will maintain the ditch-lines on either side of these culverts. In the event that a driveway culvert is damaged or inadequate in function, for any reason, WEVD reserves the right to demand rectification of said inadequacy. WEVD also reserves the right to rectify said inadequacy by whatever means necessary including removal and replacement of culvert, at the expense of the owner of the driveway. WEVD is not responsible for resurfacing of driveways in which culverts are deemed inadequate and needing replacement.
